Today's new fashion for faces
 is the ultra-sheer understatement of
UltraLucent Make-up
 by Max Factor

Today's face is the superb
 understatement to today's fashion.
 Beautifully bared. Softer than yester-
 day. And UltraLucent Fluid gives you
 that look. It's a quiet tint. A gentle glow.
 And it covers just enough to make
 tiny lines and faws seem to disappear.

The UltraLucent Make-up Collection by Max Factor.
